

Marine fibreglass lamination and assembly

Rayglass Boats is New Zealand's leading fibreglass powerboat builder. Exciting projects on the go and new models on the horizon means we are looking right now for keen, fit people to join our growing boat lamination and assembly team based in Pakuranga.

The factory is clean and purpose built with top of the line extraction systems, making this one of the most comfortable environments to perform this line of work.

Have you got lamination experience? Can you use power tools confidently and do you have an eye for detail?

Are you satisfied when your efforts culminate in a top quality highly reputable product?

Does your work history prove you to be honest, reliable, adaptable, enthusiastic and most of all, a team player?

Did you answer yes to all of the above? Then we want to hear from you.

Duties...

- Marking, cutting, grinding and sanding of fibreglass components
- Pre-fitting components to hull and decks
- Preparing, joining, fibre glassing and fairing of hard tops
- Flo coating and speckling components
- Fibreglass and gelcoat repairs
- Polishing and detailing of boats and components
- Assisting in assembly of hulls and decks
- Production and quality control checklists
- Commitment to workplace health and safety

Experience in fibreglass lamination is desirable. However experience from any other relevant industry, such as panel beating, bus/coach building etc will be given consideration. Specific training will be provided.

These are full time permanent roles, Mon-Fri 7.30am to 4.00pm with some seasonal overtime.

Applicants are required to have NZ residency or a valid NZ work permit.
